

STEM AND GENDER ACROSS THE POND

JUNE 16 - JULY 3, 2020

Led by Dean Diane Snow, John V. Roach Honors College
and Ms. Lauren Nixon, TCU Office of the Chancellor

Fly “across the pond” to examine gender related differences for careers in the STEM fields. Learn from guest scholars, explore famous museums, and visit educational sites while residing at Princess Elizabeth House in Highgate, and calling London’s Arcadia University your academic home away from home. Use local resources and develop creative solutions as you construct an essay and deliver an oral presentation that captures a passion enlightened by the course, such as the gender pay gap, the role of childcare in work-force attrition, or the inclusion of all genders in clinical trials. And of course, enjoy cultural sites, food, and entertainment like none other in the world!

COST: \$4,200

INCLUDED

- Housing
- 1 to 2 Meals per Day
- Ground Transportation in London
- Museums/Site Entry Fees

NOT INCLUDED

- Passport & Visa
- 1 to 2 Meals per Day
- Roundtrip Airfare to London
- Incidentals
